

# EASY CARE

## FOR YOUR COOLING SYSTEM!

### Introducing Permatex® Heavy Duty Aluminum Radiator Flush

**An easy way for the professional and Do-It-Yourselfer to improve operating performance.**

Permatex® Aluminum Radiator Flush is ideal for helping vehicles run efficiently. Keeping a cooling system free from sludge and build-up is critical for both smooth engine operation and saving fuel.

Permatex® Aluminum Radiator Flush is a non corrosive combination of organic cleaning acids that removes rust and scale deposits that build up in a radiator over time, robbing vehicles of performance. While the formula is strong enough to remove oxidation, it's also mild enough to be used on all types of radiators, including aluminum which is common in most of today's cars and light duty trucks.

Engine wear and the prospect for breakdown increases with vehicles being driven more frequently and in more stop & go traffic. Using Permatex® Aluminum Radiator Flush for cooling system maintenance reduces the potential for overheating and vehicle breakdown, giving drivers added assurance that they can depend on their car/truck's operation.

### ORDERING INFORMATION

ITEM #	DESCRIPTION	BOX PER CASE	CASE DIMENSIONS	CASE CUBE	GROSS WT. LBS.	UPC PREFIX 686226
80032	Permatex® Heavy Duty Aluminum Radiator Flush, 22 fl oz bottle	12	14.63"L x 9.25"W x 7.75"D	22.00	0.61	80032 9
